ELECTRICAL SERVICES (N.I.) LTD.
11 MICHELIN ROAD, MALLUSK,
NEWTOWNABBEY, CO. ANTRIM, BT36 4PT

ENVIRONMENTAL POLICY

B. I. Electrical Services (N.I) Ltd. recognises that our products, construction activities and services have potential Environmental Impacts. We accept that we have responsibilities towards environmental matters and will ensure that environmental protection and prevention of pollution forms part of all Company practices and policies.

Accordingly we have adopted the following policy for setting and reviewing our environmental objectives and targets:

1. To ensure compliance with existing and future environmental legislation, regulation and industry Codes of Practice.
2. Liase with all relevant external bodies and with our own employees to maintain a programme of continual improvement of our environmental performance.
3. To identify and seek to reduce the significant environmental aspects of our business and to reduce pollution.
4. To recover and recycle materials where possible and justifiable.
5. To work with and encourage our suppliers, Sub-Contractors, Designers, Clients and any other interested parties to improve our overall environmental performance and where possible to encourage them to do likewise.
6. To work towards, establish and strive to maintain an environmental Management System compliant with the requirements of ISO14001 to cover all activities at our Mallusk office and all Construction Sites.

The Managing Director has overall responsibility for ensuring that the Company Policies and procedures are implemented and maintained.

This environmental Policy is publicly available and have been approved and authorised by:
